VITRO DESIGN

In America, being unique is celebrated. The United States was formed by a group of very unique people. They did not want to conform to the Kings rules. These unique people formed a unique rule of government. It took hard work, but the vision that took root over two hundred years ago is still flourishing today.

The earth is flat and revolves around the sun. Flying is only for birds. Traveling to the moon is simply not possible. How can one use a wireless phone to call your spouse from the bread aisle at the local grocery store? History is filled with Unique thinking people that changed the world.

Vitro Seating Products is unique.

That is a bold statement. But one look into our product line will prove it. We ARE unique. There are very few restaurant seating companies that can say:

We design and build complete restaurant dining environments!

The successful restaurant owner wants to be unique. He has to be unique to insure success. His food quality, menu and service all have to be unique to guarantee he will stand far above the competition.

Vitro Seating Products celebrates the unique restaurateur!

Vitro Seating Products combines vision, creativity, and budget to achieve an outstanding dining environment. We are unique that we can provide many styles of booths, chairs, stools along with coordinating light fixtures, flooring, and wallcoverings. The successful restaurateur has a vision. We stand ready to take that vision to its successful conclusion.

Vision! Value! Vitro Seating Products!

Experience the power of "V"!
